SKILLS

- **Languages**: C++/C, JavaScript, Python, Java, React
- **Frameworks**: HTML and CSS, Tailwind CSS
- **Tools/Platforms**: DBMS, DSA, GCP, Vs Code, MS excel, MS Word
- **Soft Skills**: Problem-Solving, Adaptability, Time Management, Passionate

TRAINING

- Training on Data Structure and Algorithm - Lovely Professional University | LINK June 2025 – July 2025
  - Worked hands-on with core data structures like arrays, linked lists, trees, and graphs, and practiced common searching and sorting algorithms.
  - Improved problem-solving abilities by coding algorithms and understanding their time and Space complexity using Big-O notation.
  - Applied data structures and algorithms to solve practical coding challenges and real-world problems.

- SkillCraft Technology: | LINK July 2025 – July 2025
  - Developed interactive, user-friendly web applications, including a visually appealing To-Do app with task management, local storage, and CSV export features.
  - Gained hands-on experience in HTML, CSS, and JavaScript, focusing on improving design, functionality, and overall user experience.
  - Strengthened front-end development skills and enhanced practical problem-solving abilities during the internship.

PROJECTS

- Minesweeper Game Development using DSA: | LINK Jun 2025 – Jul 2025
  - Developed a fully functional Minesweeper game as a practical case study for applying core data structures and algorithms.
  - Demonstrated how theoretical CS concepts translate into building a classic puzzle game.
  - Implemented a 2D array to enable fast and efficient cell access during gameplay.
  - Utilized a set data structure to manage and track flagged cells accurately.
  - Built an interactive GUI using Python's Tkinter library to enhance user experience.

- Smart Timetable Scheduler: | LINK Jul 2025 – Jul 20 25
  - Developed a Smart Classroom & Timetable Scheduler to manage faculty, subjects, classrooms and automated timetable generation.
  - Designed an intuitive admin dashboard for adding, editing, and organizing academic resources.
  - Implemented constraint-based scheduling to ensure conflict-free and optimized timetables.
  - Provided dedicated views for faculty, rooms, and programs to improve usability and information access.
  - Enabled timetable export functionality for easy sharing and offline use.
  - Built the system using HTML, CSS, JavaScript, Local Storage, and CSV export mechanisms.

CERTIFICATES

- Java Programming on iamneo platform. | LINK Jan 2025 – May 2025
- Introduction to Hardware and Operating Systems by IBM (Coursera) | LINK Sep 2024-Sep 2024
- Data Structures and Algorithm on iamneo platform. | LINK Aug 2024 – Dec 2024

ACHIEVEMENTS

- **Google Cloud Platform Leaderboard – Diamond League**
  Ranked among top performers in Google Cloud Challenges, completing 30+ hands-on cloud skills.
- **AWS Student Community Day – Participant (2025)**
  Attended cloud-focused technical sessions and workshops on AWS services and architecture.

EDUCATION

- **Lovely Professional University** Punjab, India
  B.Tech – CSE *(specialization in Cloud Computing);* ***CGPA: 7.64*** *Since August 2023*
- **India International School** Asansol, West Bengal
  Intermediate; ***Percentage: 80.4*** *April 2022 - May 2023*
- **Assembly of God Church School** Asansol, West Bengal
  Matriculation; ***Percentage: 91*** *April 2021 - July 2021*
